## Shift+ Base Folding table and four-legged table.

**Structure (FlipTable)** consisting of a centrally positioned steel tube cross-member with an articulated console. Folding function can be deployed with a two-hand safety actuator under the table top. With a fitting for securing the table top in the horizontal and vertical positions.

**Frame** consisting of two curved, powder-coated steel tubes and 4 lockable casters.

**Table heights** acc. to DIN EN 1729.

**Function:** With the table top folded upright any number of tables can be pushed together to optimize space.

**Frame (Cross)** consisting of welded round steel tube legs with set-back rectangular steel tube casing frame, in each case powder-coated. Partly with tube-in-tube hexagon key height adjustment (see table). Tables with 4 plastic, felt or 2C universal glide elements or with glide elements and 4 lockable casters.

**Table heights** acc. to DIN EN 1729 in fixed heights or with step height adjustment with hexagon screw fastening.

**Table top** made from melamine resin-coated chipboard with glued plastic edge or a rigid CDF fibre board or high-strength solid HPL top. The corners have 25 mm rounding..

**The following material groups are available to choose from:** Frame made of steel: M1; Top made of LIGNOpal: L4; Highly compacted plate: L4.

**Further products on this page:** NF-Move.
