

PRODUCT INFORMATION Shift-p-BStand_TY_EN - 01.03.2018 - www.kcsa.co.za

Shift+ Base Height-adjustable teacher's lectern.

Frame consisting of welded, powder-coated, U-shaped steel skids and a centrally positioned leg/post. Skids as standard with 4 casters (2 of which are lockable).

Function: The gas-filled strut is actuated by a hand switch on the edge of the lectern top. The hand switch is fitted with a safety cover to protect against unintentional actuation.

Lectern height in two fixed heights or infinitely height-adjustable with integrated gas-filled strut.

Lectern top made from melamine resin-coated chipboard with glued plastic edge or a rigid CDF fibre board or high-strength solid HPL top. The corners have 25 mm rounding.

Equipment: Bookshelf made of sheet steel edged on three sides under the lectern top.

The following material groups are available to choose from: Frame made of steel: M1; Top made of LIGNOpal: L4; HPL-top: L4; CDF-fibreboard: L4.
